---

I am a dedicated Front-End Developer specialized in creating responsive and accessible web interfaces. With a strong foundation in HTML, CSS, JavaScript, and React, I excel in turning complex designs into functional user experiences. I am committed to continuous professional development and collaboration to deliver high-quality solutions.

## EDUCATION

**BSc in Computer Science**, Caleb University, Imota, Lagos, Nigeria     2020 - present
Relevant Coursework: DSA, Software Engineering, Object-oriented Programming.

**Diploma in Web Development**, Douglo Computer Institute, Ikorodu, Lagos     2019 - 2020
Relevant Coursework: HTML, CSS, JavaScript. python.

## SKILLS

| | |
|---|---|
| **Technical Skills** | HTML, CSS, JavaScript, React, Python |
| **Soft Skills** | Effective communication, Adaptability, Problem-solver |
| **Tools** | Git, Github, VSCode, Vercel |

## EXPERIENCE

**Frontend Development Intern**     May 2023 - Oct 2023
Ministry of Innovation, Science and Technology     *Alausa, Lagos State*

- Enhanced multiple front-end projects by applying responsive design principles, improving accessibility and user engagement across devices.
- Leveraged Git for version control, ensuring seamless code integration and deployment.
- Engaged in continuous learning through practical project work, contributing to open-source communities and completing advanced online courses in front-end technologies.

.
## PROJECTS

**DevJobs.** A platform where developers can browse and apply for job opportunities. Implemented features such as job listing, and search and filtering functionalities using the React library and the Context API for state management. (View Page, Github)

**Frontend Quiz App.** A quiz app that offers real-world HTML, CSS, JavaScript and accessibility quizzes. It presents multiple-choice questions one at a time to the user with a scoring system that calculates and displays the user's score at the end of the quiz. (View Page, Github)

**Pomodoro Timer.** A productivity tool used to manage work and break intervals to improve users mental agility and manage their time more effectively. (View Page, Github)

**Rest countries.** An user-friendly app that allows users to see various details about countries and interact with the data in meaningful ways. It includes features such as regional filter, countries search, and country detail view. (View Page, Github)
